

## BRINGING SMILES TO THE SCHOOL LEARNERS

On Wednesday, 19<sup>th</sup> February 2014, Thabo Mofutsanyana District Municipality offered support to Government Communications (GCIS) in its back to school outreach campaign held at Morena Tshohisi Moloi II Intermediate School in Kholokoe Village.

The event was organised in collaboration with local NGO, Masibonisane, and other stakeholders from around Harrismith.

The organisers brought smiles to the learners by giving them donations in the form of food parcels, school clothing and learning materials.

This event was also used as a platform for motivational talks with the pupils as well as the community attending on the day.

School Principal Choekie Heyns expressed gratitude for the campaign. "Kholokoe is such a traditional area, and it has been the chief's wish to have a school for the past twenty years. In the two years we've been open; our school has grown from 315 learners to 853 pupils. Our biggest challenge is getting more mobile classrooms, as we are fast running out of space," she said.
